# ANNUAL REPORT 2019

The National Alliance for Grieving Children (NAGC) is a nonprofit organization that raises awareness about the needs of children and teens who are grieving a death and provides education and resources for anyone who supports them. Through the collective voice of our members and partners we educate, advocate, and raise awareness about childhood bereavement.

The National Alliance for Grieving Children is pleased to share our 2019 annual review with you. It is because of you and others who support our mission that our work on behalf of grieving children is accomplished and the goal that no child grieves alone becomes a reality.

The NAGC is a nationwide network comprised of professionals, organizations, institutions and volunteers who promote best practices, educational programming and critical resources to facilitate the mental, emotional and physical health of grieving youth and their families. We are the only national organization dedicated solely to supporting grieving children.

On behalf of the Board of Directors, staff and our members, it is an honor to share an overview of the powerful work of the NAGC. We hope you will take a few minutes to review the information, celebrate the great work and share with others who might have an interest in becoming an ambassador for grieving children.

If you are not yet a member of the NAGC, we invite you to join us! The NAGC provides access to resources and networking with others throughout the childhood bereavement field. Our members include those who work or volunteer for hospices, hospitals, funeral homes, mental health centers, practitioners, community volunteers and educators. Please consider becoming a part of this formidable group.

A very special thank you to each of you that make the work of the NAGC possible. Together, we can strive to ensure that no child grieves alone!

With gratitude,  
Vicki Jay

## NAGC WORK GROUPS

Formed in 2019, the goal for these groups is to identify and share best practices on topics relevant to the field of childhood bereavement. Harnessing the power of the alliance, the output of these groups are current, relevant, and targeted to the needs of the field. The outputs are shared widely at no cost to both members and non-members.

The first group, The Building Resources Workgroup created the "NAGC Hero Toolkit," which acted as a resource for thousands during November marking Children's Grief Awareness Month.

# FUNDRAISING & FINANCE

Program revenues held firm throughout the year, boosted by strong attendance at our symposium.

All of our programs showed growth in attendance and supported the identified needs of our membership and the field at large.

We are grateful for our continuing partnership with New York Life Foundation that commits funding to all major program areas.

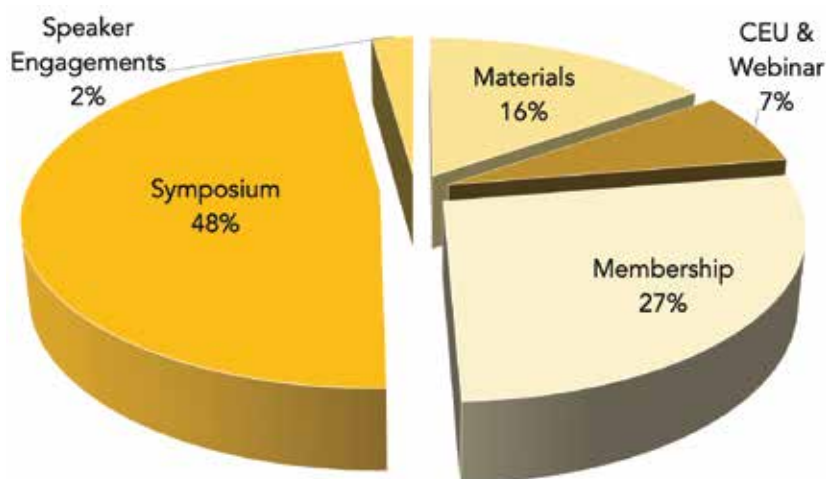

We continue to focus on providing a mix of resources that are free for the community and revenue streams for the organization to continue it's work.

In November 2019, we hired a full-time Marketing & Development Director, Deirdra Flavin to support the growth and diversification of our funding. You can reach out to Deirdra to discuss sponsorship or opportunities for support at [deirdra.flavin@childrengrieve.org](mailto:deirdra.flavin@childrengrieve.org).
